How your medical information is accessed	Strict secure access for authorised staff 	Strict secure access for authorised staff with patients consent 	Strict secure access for authorised staff 	Confidential information for research and planning purposes conducted by NHS Digital 	Effectively anonymised for research purposes unless otherwise stated 
How do I share my medical information	Complete a data sharing consent form available from the surgery or download from Ashville Medical Practice Website	The organisations above will be able to view some of your medical information (as listed above)with your permission (consent), when you make contact with the service	Every-one has summary care record unless you have chosen to opt out. You can choose to opt out of the scheme by completing a form and bringing it to the surgery. The form can also be obtained from the surgery	The National Data Opt Out is a programme of work led by NHS Digital. If you do not wish for your confidential information to be shared for research and planning purposes either go online to https://www.nhs.uk/your-nhs-data-matters/manage-your-choice/ or telephone 0300 303 5678. Your preferences cannot be actioned by the GP practice.	This GP extraction service (GPES) collects information from GP clinical systems in England and forms part of the Health and Social Care Information Centre's (HSCIC) GP Collections service. This GP surgery participates in this activity
