<b>6</b>	Overall, how would you describe your experience of this GP practice?	90%	85%	92%	

#### Comments

Modern General Practice was implemented 23rd May 2023 with significant improvements seen from the NHS survey as demonstrated above

The number of responses in the Ashville surveys are more representative of our practice population than the NHS survey

Accurx patient triage was implemented in May 2023 and we wanted to know patients views on this hence the reason for question 3

We have made significant improvements from Winter 2024 to Winter 2025, especially when there was unprecedented demand across General Practice and our patient numbers have increased by 301 patients from March 2024 to March 2025

Patient numbers have increased since winter 2024 and the satisfaction has increased too
